

# Ant Proof Bowl Recommendations

---

## The Antser

A combination of water and soap are put in the bottom of The Antser. Food and water bowls are placed on the flat top. Water inside The Antser should be changed at least once a month.

Cost: \$26.95 (+ 9.95 Shipping and Handling. \*Shipping is a flat rate regardless of how many Antsers you buy)

[Available at TheAntser.com](http://TheAntser.com)

## Fool-A-Bug

Stop ants from getting into your pets food or water bowl. UV rated and non-toxic resin. Waterless system does not need water to keep the ants out. Quality USA manufacturing.

Cost: \$8.00 – \$14.00

[Available at Amazon.com](http://Amazon.com)

## The Simple Pet Feeding Friend

The feeder holds a bottle of water in the center to maintain water level, and a food hopper provides a gravitational free flow of food. The bowl of water stands between ants and the cat food. Though this feeder is “ant proof” Alley Cat Allies recommends feeding cats only the amount they can eat in a 30 minutes sitting. We do not recommend leaving food out at all times. The feeder can only be used for dry food.

Cost: \$34.99

[Available at Amazon.com](http://Amazon.com)

## The Mote

The Mote does not use water, but instead has a lip that prevents ants from climbing up. A favorite used by Alley Cat Allies in New Orleans during Hurricane Katrina.

Cost: \$11.95 – \$16.95 (plus shipping)

## Sani-Moat Ant Barrier

The Sani-Moat Ant Barrier is a platform that bowls or trays of food can be placed on. The interior must be filled with water. A large platform can even be elevated with one at each corner.

Cost: Starts at \$10.99 to \$14.99 plus shipping, handling, and taxes. Extra accessories are available at extra cost.
